Health Insurance Information

PT360 provides quality, easy to access, and individualized specialty care that requires adequate time with our patients. All sessions are at least 50 minutes one-on-one with an experienced, licensed Physical Therapist. In order to provide you with this level of service, PT360 is a fee-for-service provider. We offer significant value when compared to other providers, by providing four times as much one-on-one time per session and often require half as many total visits during the course of your treatment.

Please check your out-of-network Physical Therapy benefits prior to your visit. We courtesy bill all insurance claims. In most cases you will be able to receive partial reimbursement (about 40%-80%) from your insurance company. Most Medicare claims are reimbursed at 70%-90%.

We offer easy payment options for those with high deductible and/or health savings account/flexible spending accounts.

A 15 minute complimentary phone consult can be scheduled upon request at 770-255-8860.
